Year 4: ART Afternoon Work. 22nd June to 26th June 2020

This is a screenshot of the Art page found on Espresso. As with the previous work, choose an area that interests you and then complete the activities. You can take a photo of your activities or quizzes and post them onto portfolio. If you can paint, sketch, create art-that also qualifies as a valid activity. In your garden, you can create 'land art' too. I have done something similar in my art club and have included a picture of my work this time last year.

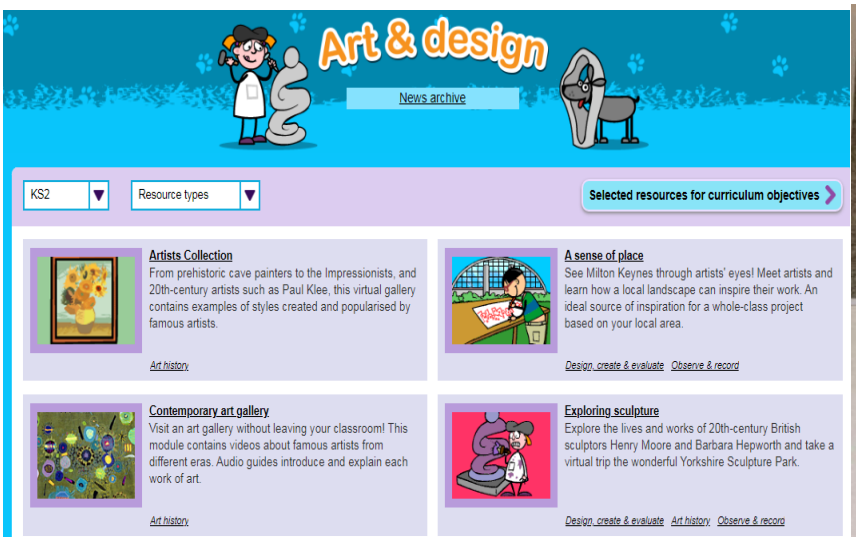
The main thing is that you enjoy creating art in whatever form you choose.

Here is the link:

https://central.espresso.co.uk/espresso/modules/subject/index.html?subject=862043&grade=ks2&&source=espresso-home-keystage2subjects

Here are the log on details. Student25478 school123

There is a section for extra research too.



For this land art piece, I used grass, flowers and leaves. You could also use stones, sticks or anything else you can find easily in the garden or park. Just experiment with it and see what happens. Then take a photo.

Andy Goldsworthy is an artist who uses nature inspired art. Google him.

Have fun!
