

MR Gaudi

After a tiring journey from Barcelona, Mr Gaudi arrived in the picturesque city of Nottingham .The next day he buttoned up his jacket and went to the new Art Exchange. He looked at the building, scratched his head and said, “What? It looks more like a cave than an Art Exchange!” Gaudi commented to himself.

When he arrived at the Theatre Royal, he said, “Look at these columns, can I do this to another building?” Gaudi thought about it and he decided to do this on another building.

After visiting Theatre Royal he visited Nottingham Play house .He saw a big circle shaped mirror called a Sky mirror. When we look at the front of the mirror we are upside down and back we are right way up .He looked at it, stroked his beard and said, “This design is really nice and I am going to take notice of it.”

As soon as he approached the Castle, he noticed an incredible stonework that clung together .He also noticed a statue holding bow and arrows. He looked at it ,stroked his beard and said, “ Hello Mr Archer, why

are you here?" " I am Robin hood" ,the statue replied. "No one cares about my work." Said Gaudi with a sad look on his face.

As soon as he stepped to the old market square ,he observed majestic lions in front of a very important building called the Council house. It had shiny glass windows with stone pillars at each side. The clock in the Council house will ring at quarter an hour.He saw two lions there ,their names were Oskar and Leo . "I haven't seen you around." " No I am from Barcelona!" He uttered with a glint on his eyes.
