

Our visit to Idle valley

I

TA

- ✓ On 25th of March year 4 children in Scotchthorne primary school visited^{PT} to Idle valley nature reserve. Idle valley which is North Nottinghamshire, is a place where you can learn many things about water. RC SC

✓ SC

When we arrived at Idle valley, we split into 3 teams. Those 3 team names was Kingfishers, Herons and robins. We did pond dipping, river walk and water filtration. In pond dipping we caught some creatures in water with the net and learned about them. On the river walk, we learned many things about ^{PT} ✓ and birds who flies all the way to Africa and comes back at spring. On water filtration we learned how to make dirty water into clean water. ✓

s/pl

a bird flies
birds fly All the things we did was interesting. The amazing and unbelievable thing was some birds flies fly. all the way to Africa in winters and comes back in spring. ✓

The funny thing was someone tried to catch a frog and dropped the net in the pond. Overall it was fun. We learned many things visiting there. ✓

How interesting Abhijay! I love your writing style and how you bring so much detail and interest into your piece. Well done (3PP).
