

Gaudi coming to Nottingham

Wednesday 20th May

BELLA

Mr Gaudi lived in Barcelona. He built lots of buildings but but the people in Barcelona did not appreciate his work so he decided to visit Nottingham. He had a long journey and a very uncomfortable flight. After 2 days he finally arrived at the art exchange.

Mr Gaudi thought it looked more like a prison than an art exchange. He took a look inside and said "where is all the art in here?"

Another man said "take a look up stairs."

So Gaudi took a look up stairs. When his foot stepped of the sea from stars his mouth drops open and says "where is all the imagination? All there is to see is buildings what are all ready built and simple flowers."

That made him very disappointed that the people here are all the same as the people in Barcelona. He left and began his his journey.

He walked to the forest and saw a crew of people. He said "how strange." But he decided to join the crew anyway after 10 minutes 1 2 3 4 5 6 7 8 9 10 a tram came racing towards the tram stop on the front of the tram it had a sign like this $N=T$.

Gaudi continued on his journey and saw the sights of Nottingham. He was so impressed with all the architecture that he wanted to return with his friends.
