

RECALL – QUARTER TO

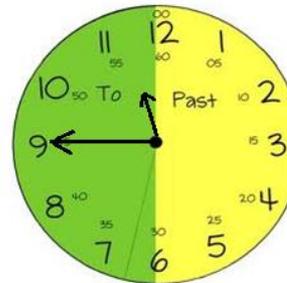

Quarter To

Quarter To

Quarter To

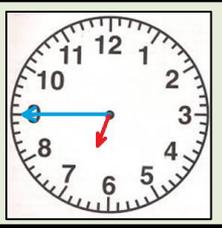

Quarter To

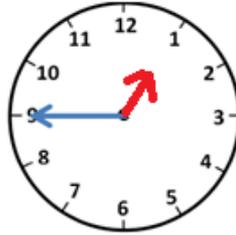

Example

When the **minute hand** points to number 9, it is quarter to. The **hour hand** is between 6 and 7. We use the hour it is moving towards.

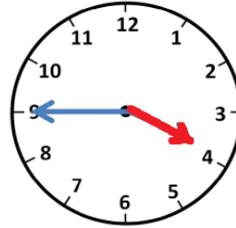

The time is **quarter to seven**.

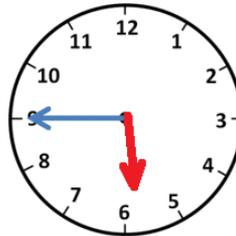

The time is:

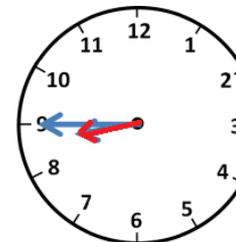

qu _____

qu _____

qu _____

qu _____

Draw the hands on the clock to show:

Quarter to five

Quarter to eight

Quarter to eleven

**LO: I CAN TELL TIME TO THE
NEAREST 5 MINUTES (TO).**

Page

Success Criteria

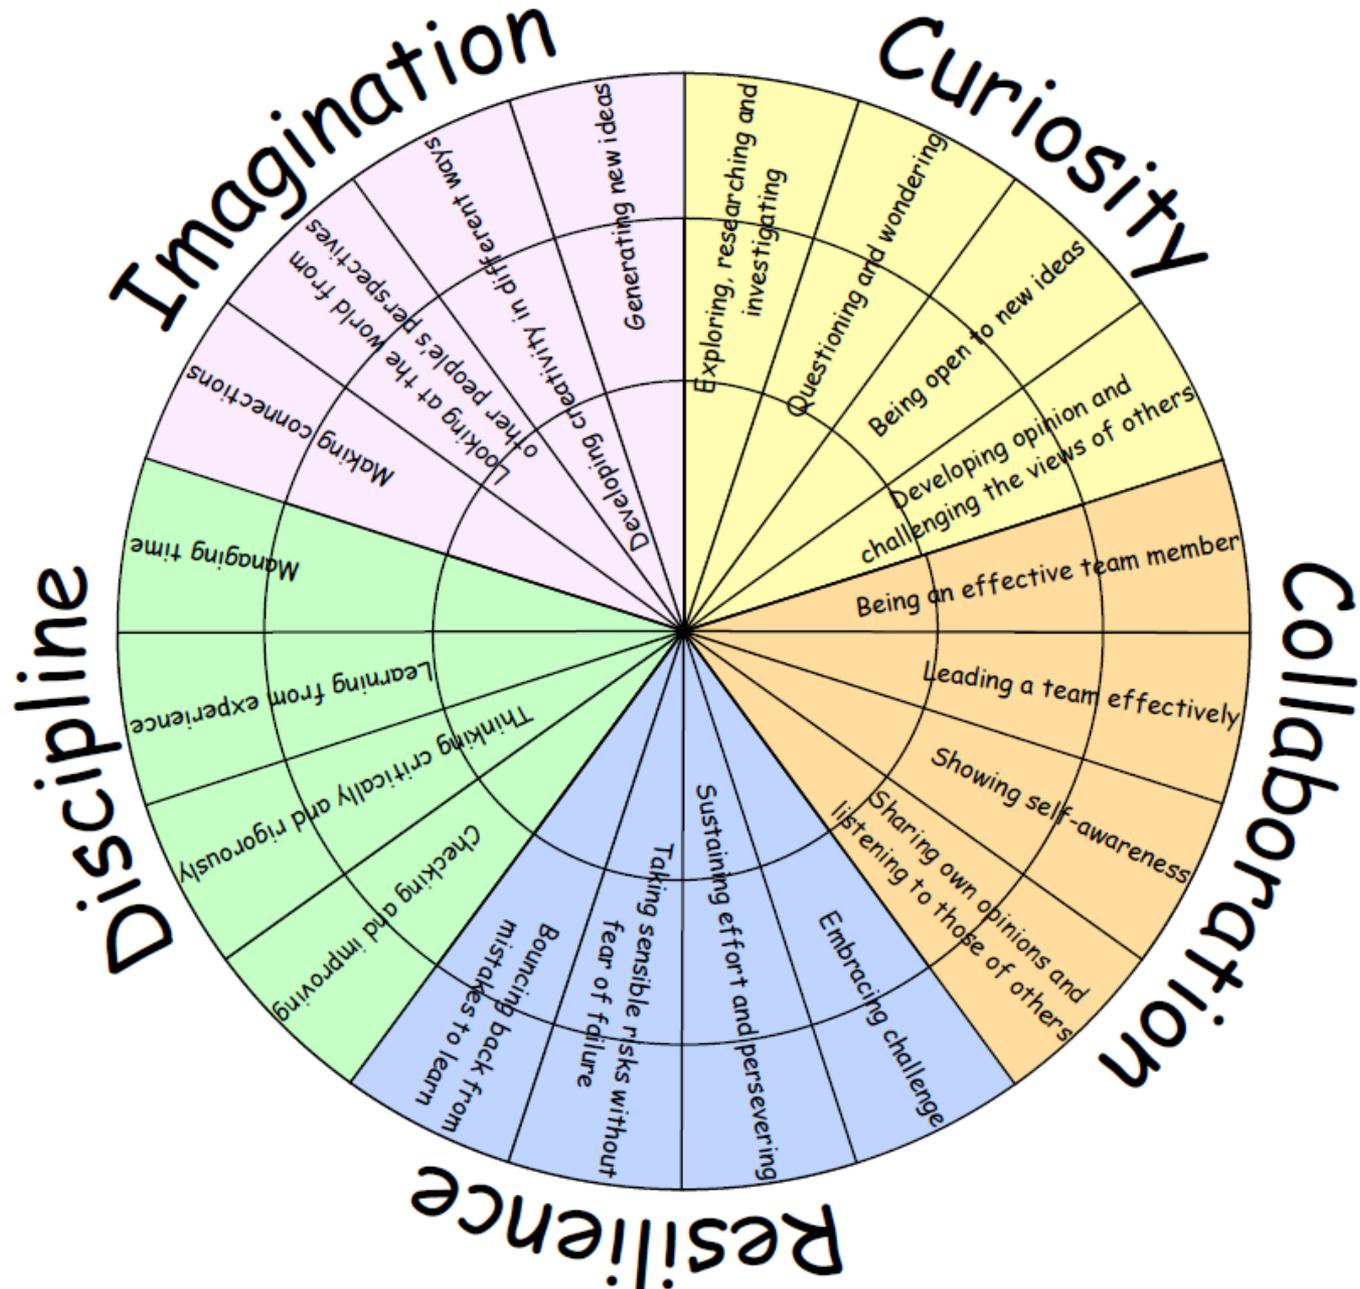

Some will even problem solve.

Some will recognise that numbers represent 5 minute intervals.

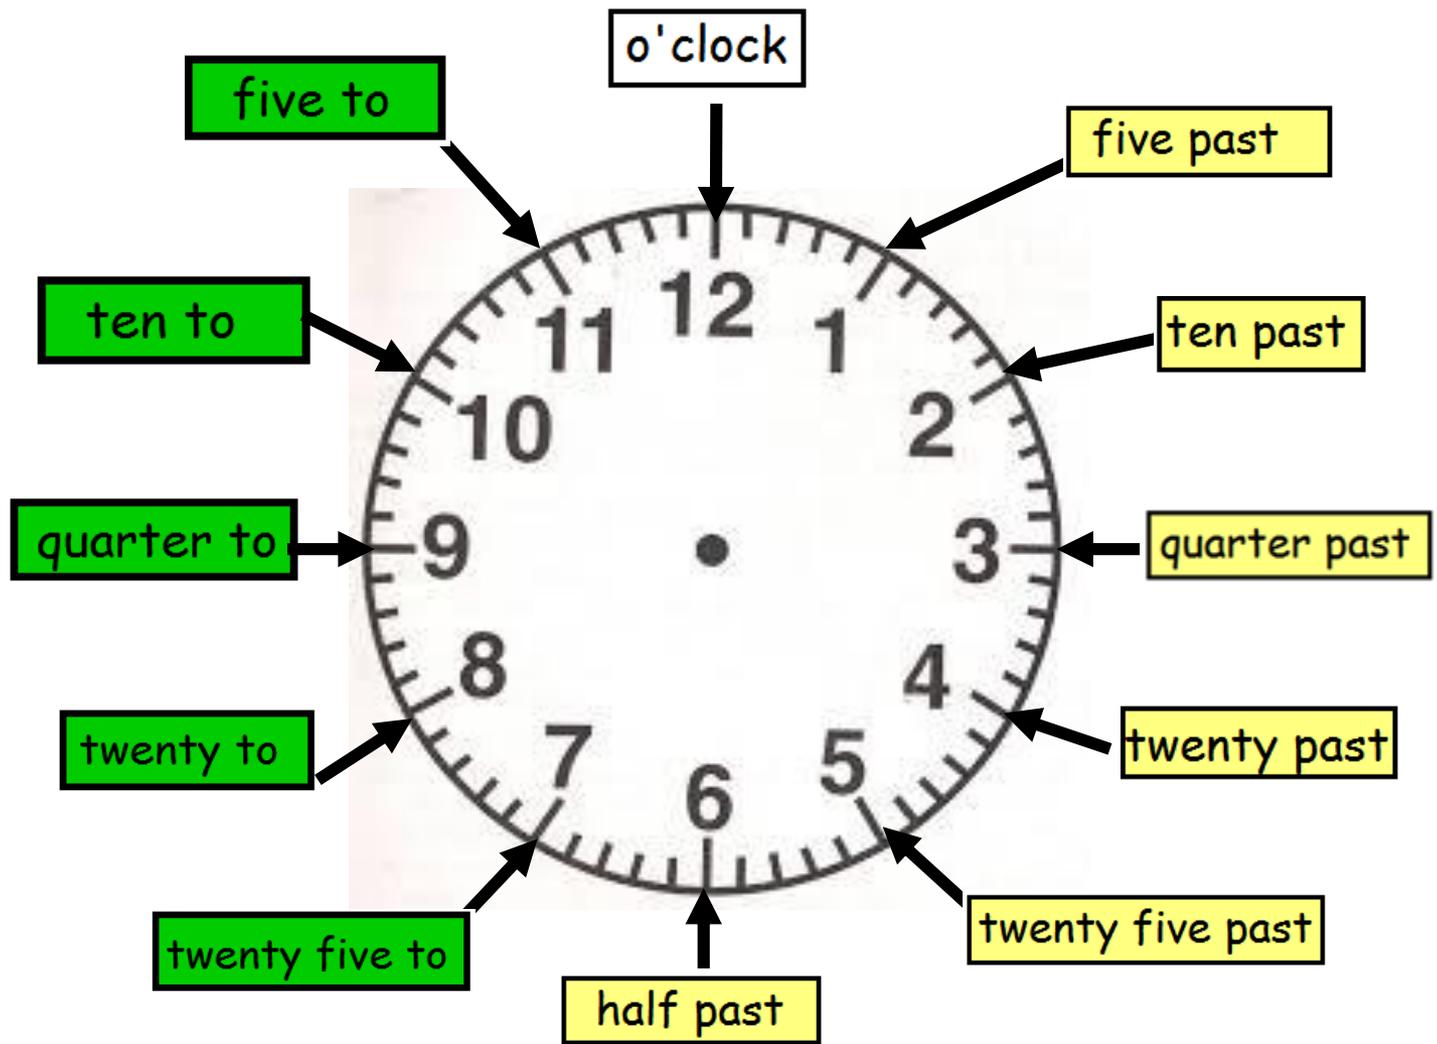

Most will know that the numbers 7, 8, 10 and 11 on a clock face can also represent 25 to, 20 to, 10 to and 5 to.

All will recognise which side of the clock shows 'past'.

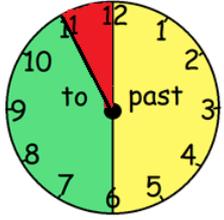

LEARNING HABITS?

GUIDED PRACTICE (1) – PAST AND TO TIMES

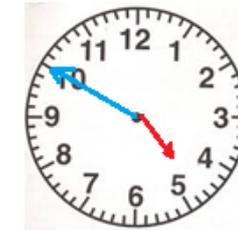

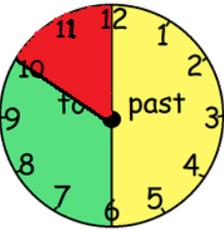

GUIDED PRACTICE (2)

When the **minute hand** points to 11, it is 5 minutes until it reaches o'clock.

It is **five to** _____.

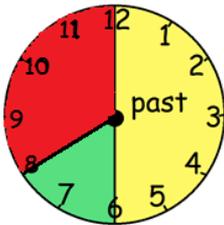

The **hour hand** has passed 2 and is almost at 3.
The time is **five to three**.

When the **minute hand** points to 10, it is 10 minutes until it reaches o'clock.

It is **ten to** _____.

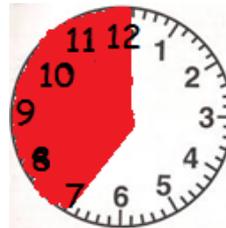

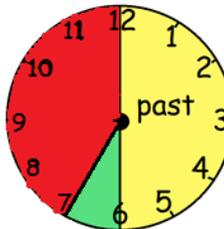

The **hour hand** has passed 4 and is almost at 5.
The time is **ten to five**.

When the **minute hand** points to 8, it is 20 minutes until it reaches o'clock.

It is **twenty to** _____.

The **hour hand** has passed 6 and is almost at 7.
The time is **twenty to seven**.

When the **minute hand** points to 5, it is 25 minutes until it reaches o'clock.

It is **twenty five to** _____.

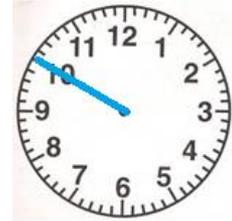

The **hour hand** has passed 10 and is almost at 11.
The time is **twenty five to eleven**.

INTELLIGENT PRACTICE

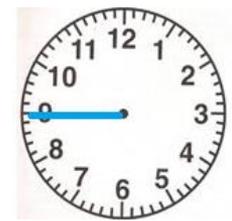

What time is the minute hand pointing to? Draw lines to match the labels.

ten to

five to

quarter to

twenty five to

twenty to

Draw lines to match the clocks to the correct times.

five to six

five to four

five to nine

ten to twelve

ten to two

ten to seven

twenty past three

twenty past ten

twenty past five

twenty five past two

twenty five past six

INTELLIGENT PRACTICE

The **minute hand** points to 11.
It has ___ minutes left until o'clock.

The **hour hand** is between 1 and 2.

The time is ___ to ___.

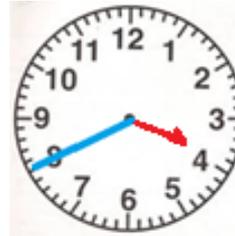

The **minute hand** points to 10.
It has ___ minutes left until o'clock.

The **hour hand** is between 2 and 3.

The time is ___ to ___.

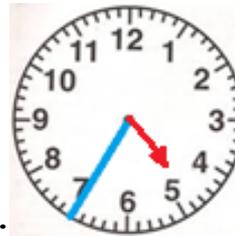

The **minute hand** points to 8.
It has ___ minutes left until o'clock.

The **hour hand** is between 3 and 4.

The time is ___ to ___.

The **minute hand** points to 7.
It has ___ minutes left until o'clock.

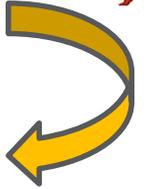

The **hour hand** is between 4 and 5.

The time is ___ to ___.

When counting 5 **past**, 10 **past**, quarter **past**, 20 **past**, 25 **past** and half **past**, we count clockwise.

That means we count in 5s around the clock in this direction, starting from o'clock.

However, when counting 5 **to**, ___ **to**, quarter **to**, ___ **to**, ___ **to**, we count anticlockwise.

That means we count in 5s around the clock in this direction, starting from _____.

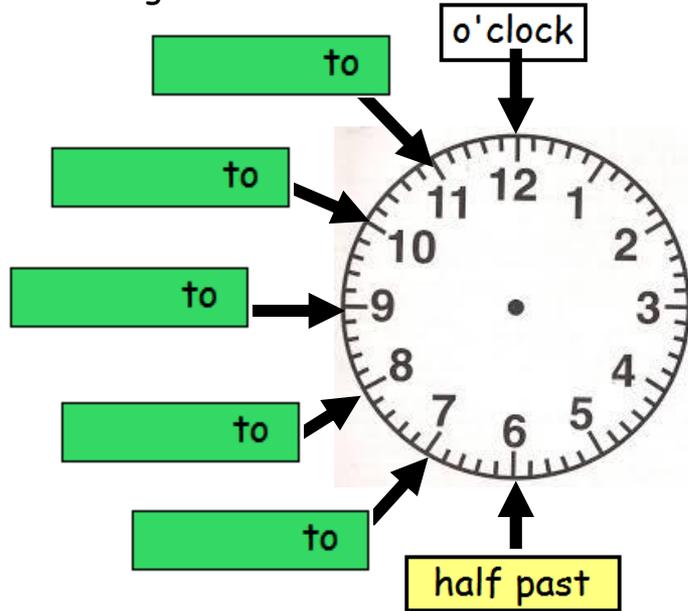

DIVE DEEPER 1

1 Which half of the clock face shows 'to' times?

Colour that half in.

2 Finish labelling the clock face.

3 When the **minute hand** points to number 8 on the clock face, it means _____. Tick one.

ten to

twenty to

4 At five to, it is 5 minutes until the minute hand reaches o'clock.

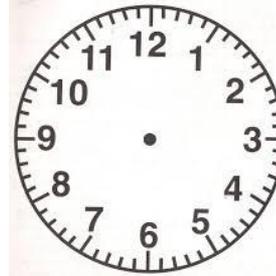

At ten to, it is _____ minutes until o'clock.

At quarter to, is it _____ minutes have passed.

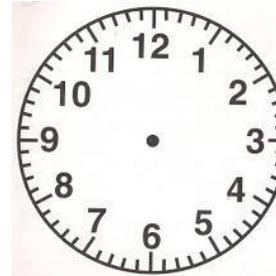

At twenty to, it is _____ minutes until o'clock.

At twenty five to, it is _____ minutes until o'clock.

5 Draw the time on the blank clock faces.

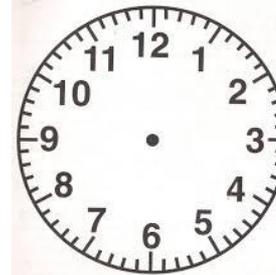

five to eight

ten to four

quarter to twelve

twenty to five

twenty five to eleven
