

RECALL – HALF PAST

When the long minute hand is pointing up at 12, it is o'clock.

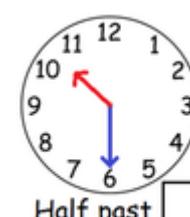

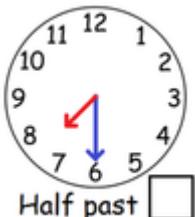

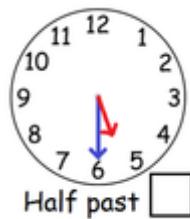

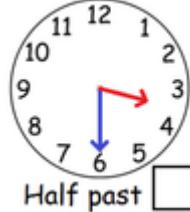

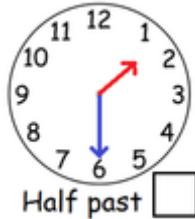

When the long minute hand moves round, passing 1, 2, 3, 4, 5 and then points down at 6, it is half past.

Half of the clock is coloured in green. True or false?

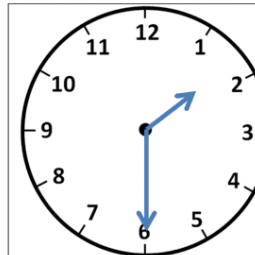

When the **long minute hand** is pointing to the bottom, it means half past.
The **short hour hand** has passed the number 1 but hasn't reached the number 2 yet. *It is half past 1.*

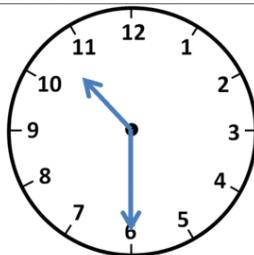

Complete the missing times below.

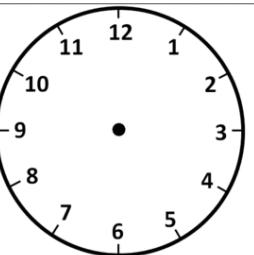

For each time, write the time or draw the hands.

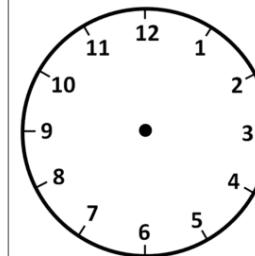

Half past ____

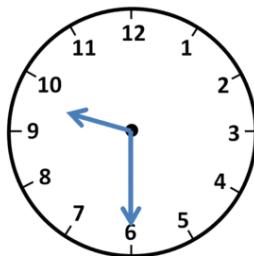

Half past ____

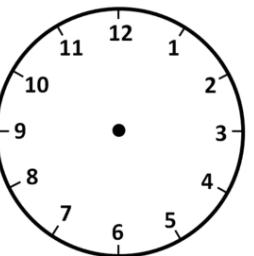

Half past 3

Half past 5

Half past ____

Half past 11

Count forward in hours.

Half past one, half past two, half past three

_____, _____, _____,

_____, _____, _____.

3 BEFORE ME
Use a plastic clock.

RECALL – HALF PAST

There are 60 minutes in one hour.

How many minutes are there in half an hour?

$$60 \div 2 =$$

Half past means ____ minutes.

Draw a line to match the times. One has been done.

10 : 30

half past nine

5 : 30

half past ten

9 : 30

half past five

7 : 30

half past eleven

1 : 30

half past seven

11 : 30

half past one

3 BEFORE ME

Use a plastic clock.

To work out the digital time for the afternoon, add the current hour to the 12 hours from the morning. Complete the table.

Time	Morning - am	Afternoon - pm
	02:30 am	__ :30 pm (12 + 2 = __)
	06:30 am	__ :30 pm (12 + 6 = __)
	09:30 am	__ :30 pm (12 + 9 = __)
	__ :30 am	__ :30 pm (12 + __ = __)

It is this time.

What time was it five hours ago?
Write it in words and in digital.

3:30

LO: I CAN READ QUARTER PAST ON A CLOCK.

Page

Success Criteria

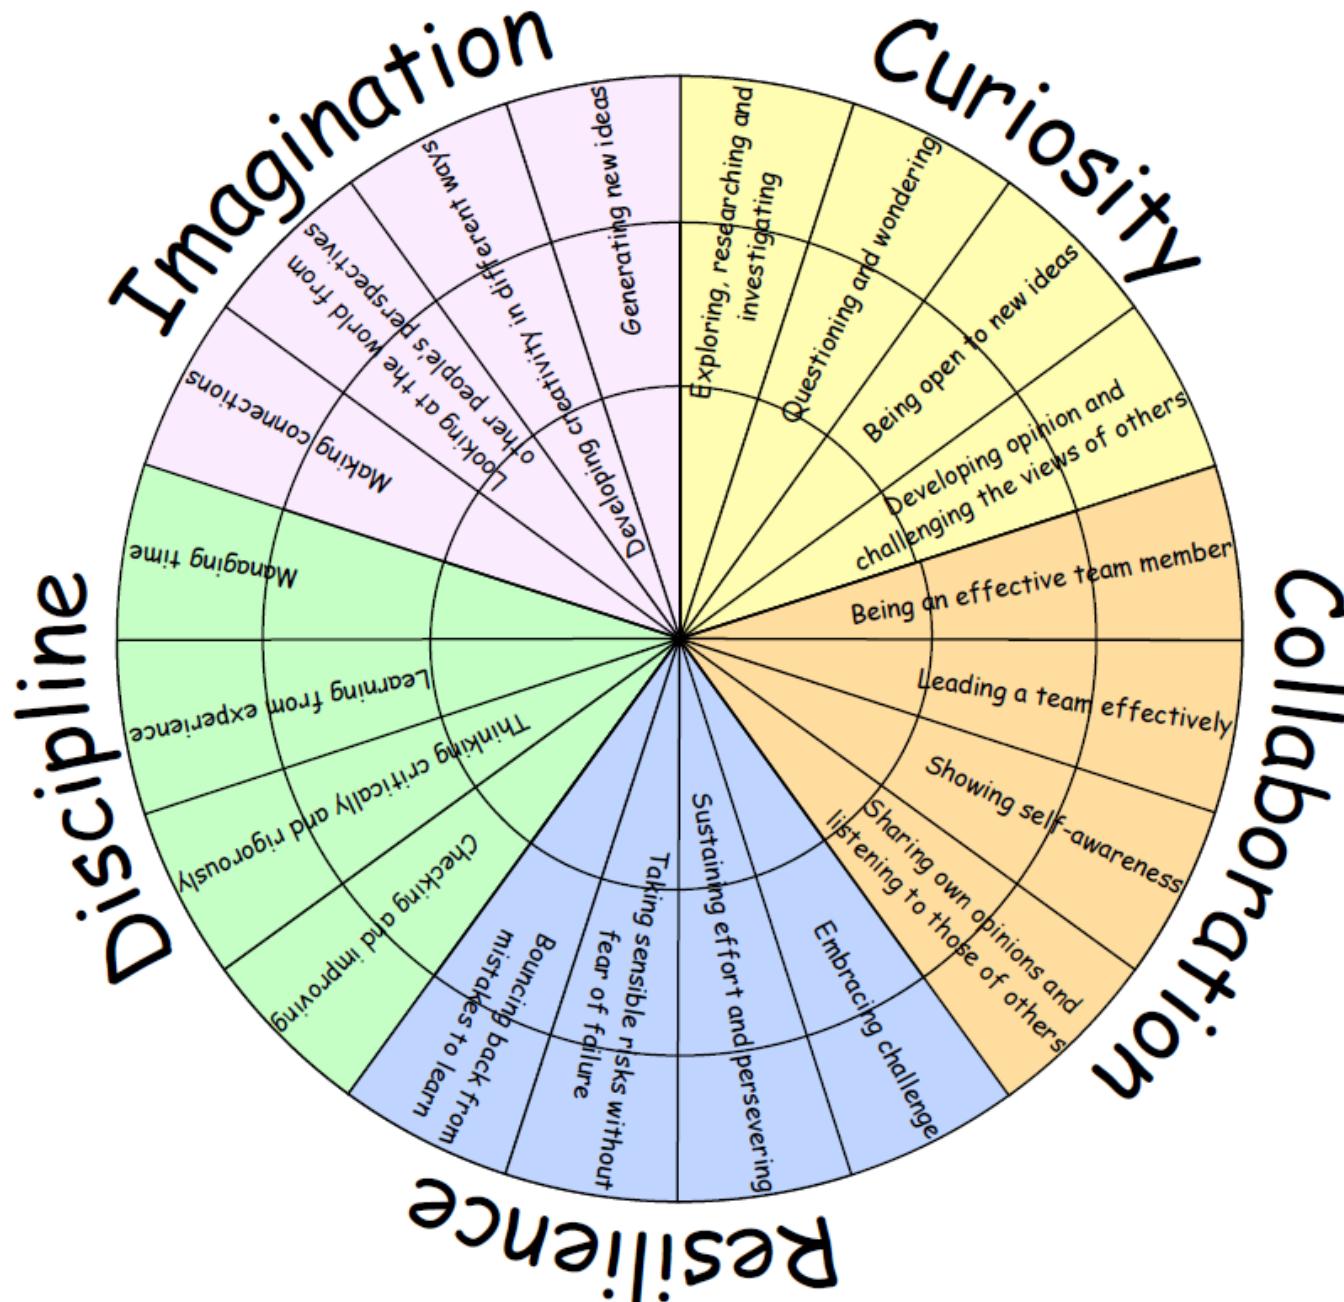

Some will even problem solve.

Some will write these times in words and digital form.

Most will read quarter past times.

All will locate o'clock, half past, quarter past on a clock face.

LEARNING HABITS?

GUIDED PRACTICE

When the long minute hand points to the number 12 at the top, the time will be **O'Clock**

The digital time will be __:00.

When the long minute hand points to the number 6 at the bottom, the time will be **Half Past**

The digital time will be __:30.

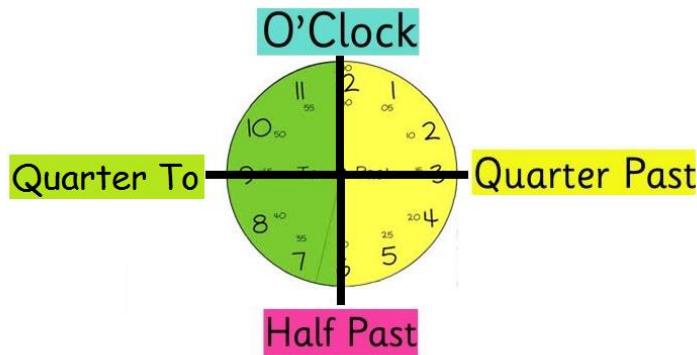

The clock face can also be split into quarters.

When the long minute hand points to the number 3 on the right, the time will be **Quarter Past**

The digital time will be __:15.

When the long minute hand points to the number 9 on the left, the time will be **Quarter To**

The digital time will be __:45.

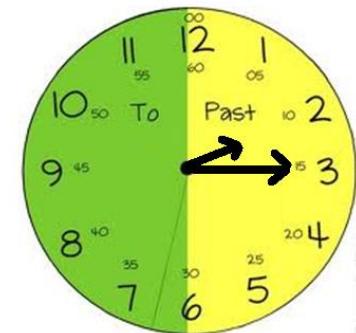

What time is shown here?

The long minute hand points to 3 on the right.

It has travelled one quarter of the way around the clock face.

One quarter of 60 minutes (1 hour) is 15 minutes.

The short hour hand has passed 2.

It is **Quarter Past** two.

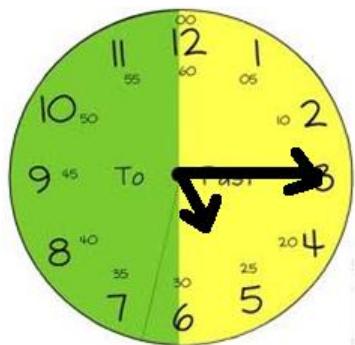

It can also be written as 2:15.

What time is shown here?

The long minute hand points to 3 on the right.

It has travelled one quarter of the way around the clock face.

One quarter of 60 minutes (1 hour) is 15 minutes.

The short hour hand has passed 5.

It is **Quarter Past** five.

It can also be written as 5:15.

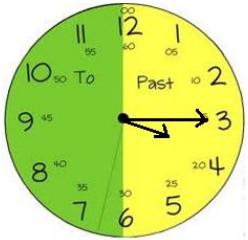

3 BEFORE ME

With quarter past, you use the hour that has just passed.

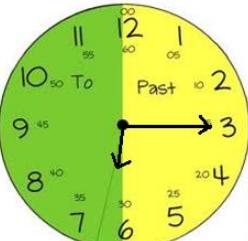

INTELLIGENT PRACTICE

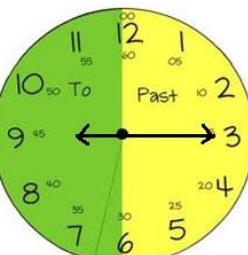

Draw lines to match the times and clocks. The time is:

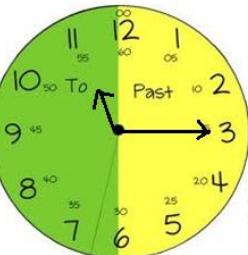

Quarter Past
six

Quarter Past
four

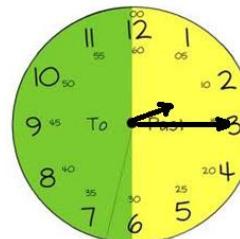

Quarter Past
eleven

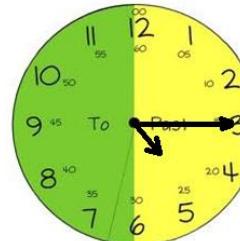

Quarter Past
nine

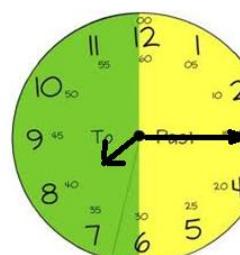

Write the times.
The time is:

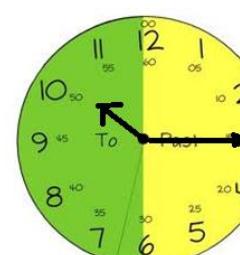

quarter past _____

quarter past _____

quarter past _____

quarter past _____

Match these
digital times
to chilli 1.

06 : 15

04 : 15

11 : 15

09 : 15

Write the times
for chilli 2.

DIVE DEEPER 1

1 The long blue minute hand points at 3 or quarter past.

The short red hour hand measures hours.
It points at 1.

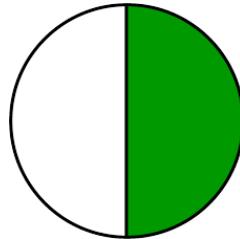

The time is quarter past ____.

2 Half past is called half past because the long blue minute hand has travelled around half of the clock face.

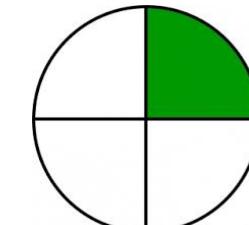

=

Quarter past is called quarter past because the long blue minute hand has travelled around a _____ of the clock face.

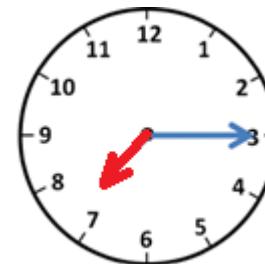

=

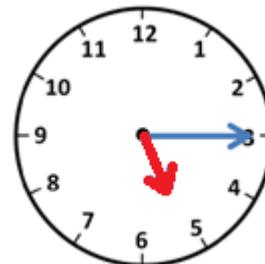

3

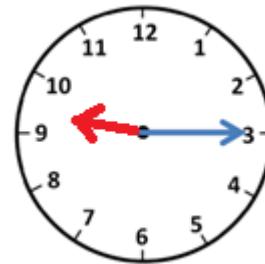

Write the time beneath each clock.

Quarter past

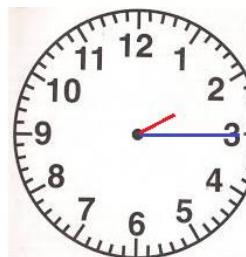

Quarter past

Quarter past

4

Draw hands on the blank clock faces to show the times.

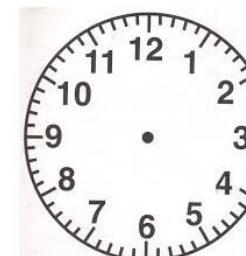

quarter past two

quarter past four

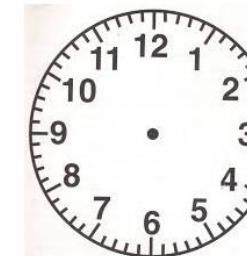

quarter past six

quarter past nine

quarter past ten

quarter past twelve

DIVE DEEPER 2

1

One hour is 60 minutes.

Half an hour is 30 minutes.

A quarter of an hour is 15 minutes.

Complete these digital times.

It is quarter past seven.

.....

.....

.....

.....

.....

.....

2

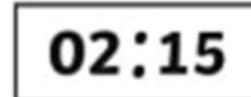

True or false?

Quarter past times will always be shown as 15 on a digital clock.

3

Write digits in the digital clock to show the time. The first one has been done for you.

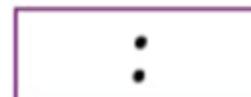

quarter past 2

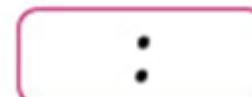

quarter past 10

quarter past 5

quarter past 8

quarter past 3

quarter past 12

4

The minute hand points to the number 3.
The hour hand points to number 11.
What is the time?

5

Is her statement true or false? Explain.

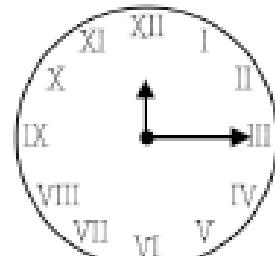

Both clocks show the same time.

6

This clock uses roman numerals to show numbers. What time is it?

What number is IV?
What number is VI?
What number is VII?
What number is XI?
