

Sport Plan 2018/19 Evaluation

| Objective | Successes | Areas to Improve |
|---|---|--|
| <p>To access high quality coaching, through a range of different options. To ensure all teachers are confident in the delivery of PE and the 15 minute PE sessions</p> | <p>Outside coaches have been brought in for a variety of sessions. Cricket and Cycling have been particularly successful in KS1 and FS.</p> <p>Lots of CPD programmes offered. 16 staff have had a variety of courses including Inclusive PE, cricket, football and wider sports. Joel has continued to offer support to all year groups.</p> | <p>New staff may need training on PE next year.</p> <p>The delivery from NCFITC has not been of the expected quality and we have therefore replaced them with Premier Sports from next year.</p> <p>Some of the university programmes have not been reliable.</p> |
| <p>To ensure all children are taking part in at least 30 active minutes every day, as part of the government's pledge</p> | <p>Majority of children are involved in active sessions. Where 15 Minute PE is being used, it is helping develop their skills. KS1 active playtimes have really helped and some of the children are excelling at football, table tennis and cricket.</p> | <p>Not all Year Groups have continued the work from previous years. This has been reiterated and ideas given to continue next year. Emphasis on short bursts of activity to support mindfulness, behaviour, skill development and memory.</p> |
| <p>To create a wider sense of community and encourage those who are less active, to take part in more sporting opportunities.</p> <p>To give PE a greater emphasis on whole school improvement.</p> | <p>Beacon School status was achieved. School Sport Council and This Girl Can was set up.</p> <p>Less active have become more engaged in sport, through a wide range of programmes, including Change 4 Life and JL's intervention groups. SEN, FS and KS1 have been more involved in competitions and events.</p> <p>Gold Award from YST for whole school provision and Sportsmark Gold for competition.</p> | <p>Work has gone into the Beacon School status, but this will need to continue into 2019-20, to engage the community more in school sport.</p> <p>Sport Council and This Girl Can was not consistent enough. This role will be led by other members of staff from September.</p> |
| <p>To continue entering a wide range of sports across all different year groups.</p> | <p>We entered 35 competitions across a range of different sports and year groups. A large proportion of the budget was used for transport to competitions.</p> | <p>We weren't as successful as last year and this may have been due to a lack of prior preparation. We may have to look at sending more competitive groups to more focussed competitions.</p> |

Continuing the success of previous years in promoting school sport

Ice skating for Year 1 has continued to be a huge success. Majority of Year Groups have used their funding well. New ideas found for next year, including mini golf at Highfields.

Some Year Groups did not take advantage of the offer and this has been reiterated to them.

Sports Week replaced Sports Day. Sports Week was a success but many children said they would like a Sports Day.

New stock was not purchased and will need to be replaced next year.
